Claim Set as Amended

1-20. (Cancelled)

21. (New) A method for uploading a digital data file, comprising:

checking a source of said digital file; and

controlling whether to upload said digital data file based on said checked result.

22. (New) A program embodied on a computer-readable medium for uploading a digital data file, comprising:

a first program code segment to check a source of said digital data file; and

a second program code segment to control whether to upload said digital file based on said checked result.
